Purpose of this document: This report consolidates every Uber trip, fare, distance (km), pickup and drop-off/destination address, and all available proofs of payment/receipt for the period February 23, 2026 to the present day (latest data June 7, 2026). It is prepared from the claimant's provided data exports, official Uber PDF invoices, raw HTML receipts, Outlook email receipts (.eml), and a transcribed receipt image. The data is formatted for convenient review by legal counsel and/or insurance adjusters.

IMPORTANT DISCLAIMER: This is a compilation of data and documents supplied by the claimant. It has not been independently verified against Uber's current live systems by the remote agent. The claimant should cross-check against the live Uber app ("My trips"), any additional email receipts, and bank/credit card statements. All values are in Canadian Dollars (CAD). Times, distances, and addresses are as recorded by Uber at the time of each trip. Pre-February 23, 2026 trips have been excluded per the claimant's instructions.

Live Uber App Access Note: The compiler is a remote cloud agent and had no direct access to a locally running Uber mobile app or logged-in browser session on the claimant's device. All information herein derives exclusively from the files uploaded to the workspace (listed at the end of this report). If the live Uber app shows additional trips after June 7, 2026, the claimant must export the corresponding receipts or data and provide them for supplementation.

Compilation Methodology:

The detailed trip log is taken from the curated 'Uber_Trips_FINAL_Feb22_May2026.xlsx' (151 trips for the insurance claim period) and was extended by one additional trip on June 7, 2026 that was parsed directly from the provided Outlook .eml file (001_fe56.eml). Individual receipt files (PDFs and HTMLs) were parsed with pdfplumber / BeautifulSoup to extract fares, distances, times, addresses, driver information, payment methods, and fare breakdowns for verification. The transcribed image receipt was included from the text representation supplied by the claimant. Pre-2026-02-23 trips were deliberately omitted. The underlying Uber rider export (trips_data CSV) was consulted to confirm the broader history and date coverage.

Regarding the claimant's open Uber app: Because this report was produced by a remote cloud-based agent, the compiler could not interact with or screenshot a locally running Uber application or browser on the claimant's machine. The claimant is advised to review the current 'My trips' section in the Uber app, download any missing receipts for trips after June 7, 2026, and supply them (or a new data export) if the period needs to be extended to the absolute present day.
